PROFESSIONAL SUMMARY

Frontend and React Native developer with 3.5+ years of experience building responsive, user-focused cross-platform mobile applications and web apps for an agri-commerce platform. Hands-on with e-commerce workflows, Razorpay payments, real-time video (WebRTC), RESTful API integration, analytics, Android crash/ANR investigation, performance debugging and Google Play Store publishing. Currently extending the platform to the web with Next.js and TypeScript.

TECHNICAL SKILLS

Frontend: React Native, React.js, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, Responsive Design, Bootstrap
State Management: Redux, Redux Toolkit, Redux-Saga
Backend & Services: Firebase, Node.js, RESTful APIs, API integration, SQL
Integrations: Razorpay, Google Maps, WebRTC, Firebase Cloud Messaging (FCM), Tata Tele
Tools: Git, GitHub, Docker, Jira, Figma, Android Studio, Chrome DevTools, Claude Code
Delivery & Debugging: Google Play publishing, Android SDK upgrades, crash/ANR investigation, performance profiling

WORK EXPERIENCE

Associate Software Engineer | *Zuari FarmHub Limited, Bengaluru* | *Feb 2023 – Present*

FarmsApp – Agri E-commerce Mobile App (React Native) | *Aug 2023 – Present* | Live on Google Play
Tech: *React Native, Redux, Firebase, Razorpay, Google Maps, WebRTC, SQL*

- Published and maintained FarmsApp on the Google Play Store, owning release deployments and updates.
- Built farmer-focused e-commerce and advisory features covering product discovery, cart, checkout, orders and order tracking.
- Integrated Razorpay payments and improved checkout usability and UI consistency, contributing to ~15% improvement in checkout completion.
- Implemented fuzzy and voice-based product search with multi-language support, reducing product search time by ~20%.
- Delivered video consultations and product-discovery enhancements for farmers.
- Built Google Maps field-mapping flows, push notifications and document-verification features.
- Investigated production crashes and Application Not Responding (ANR) issues using Play Console diagnostics and Android Studio; troubleshot app startup, notification, background-service and native-dependency problems.
- Handled Android SDK upgrades and Play Store compliance issues to keep releases stable.
- Added analytics tracking and wrote SQL queries to check app events and data, supporting product and UX decisions.

Kiosk-Agent Portal – Web Application | *Sep 2023 – Present*
Tech: *React, Redux, REST APIs, Firebase, Tata Tele, Docker*

- Developed cart, enquiry and order-management modules for agent operations.
- Implemented advanced filters for Order ID, mobile number, status, date and related fields.
- Built video-call and notification features to improve agent communication.
- Deployed the portal using Docker.

Zuari FarmHub Kiosk App (React Native) | *Feb 2023 – Jan 2024*
Tech: *React Native, Redux, REST APIs, Tata Tele*

- Improved user experience through UI refinements and animations, implementing screens from Figma designs.
- Implemented core video-call and push-notification features.

EDUCATION

B.Tech, Electronics & Communication Engineering (ECE) – 76% | KEC Kuppam Chittoor | 2009 – 2013
Full Stack Development Program – NxtWave | 2022 – 2023
